I just spent 48 hours in London that were filled with many interesting events, parties and meetings. Let me get started with the launch party for the 'Cabinet de Curiosites de Thomas Erber' 2011.

After his successful collaboration with Parisian concept store Colette in 2010, *fashion consultant and former journalist* **Thomas Erber** has brought his cabinet to Browns in London. Showcasing a very interesting selection of pieces including everything from fashion and furniture design, to travel packages, art and photography, Erber has gathered many internationally renowned artists and designers to fill his cabinet with their most unique creations.
